NOT GOLD ONLY,

BUT

RICH, FRUITY, LUSCIOUS, WINES!

California is making great strides in her agricultural products, and is fast establishing herself as a producer for the manufacturers of the various branches of industry she is developed. She is a warning voice to the timeworn old circles of Europe, and encourages the first as a fresh young candidate for the production of wines from her vine rich and increasing vineyards. The time has come when it is simply ridiculous for any one house to lay claim to especial advantages or peculiar privileges for the sale of

THE WINES OF CALIFORNIA.

As well might they claim a monopoly of the cotton trade.

C. A. RICHARDS & CO.

do not receive or sell all the wines which California produces, but they do claim to have at all times a very large quantity on hand of all the best kinds, and their advantages for getting the best, and getting them at the lowest market value, are such as to enable them to offer them at prices which to-day are lower than any other house which sells California Wines of of equal quality. We bottle five kinds. They are—

"Angelica,"
"MUSCATEL,"
"STILL CHAMPAGNE,"
"HOCK," and
"PORT,"

ALSO "CALIFORNIA BRANDY."

They are all perfectly pure, and may be relied upon in sickness or in health. The Angelica and Muscatel are rich sweet wines. The Hock is fully equal to the medium grades of Rhine wines. The Port is actually better than many of the high cost Ports from Oporto. We sell these wines in any required quantity, from a single bottle to a Thousand Cases, so I are ready at any time to exhibit samples, or to send them to any address.

Collecting a Bad Debt.

It was a dingy, ill-ventilated little cell in the topmost stratum of one of those immense human beehives that people call "tenement houses" a room where washtubs and children, kettles and kittens, potato-parings and clothes pins, were scattered about in reckless disregard of the divine principles of order. Dr. Maynard stood still in the middle of the chaos, afraid to move lest he should step in the starch bowl, or on one of the children who swar

lists as any modern European statesman. Now at length she was beginning to reap the harvest she had watched and waited so long, and her spirit rose up within her exultant, in spite of the supercilious insolence with which many of the guests treated her.

"They need a lesson, these foolish aspiring upstarts," he said, within himself, "and this is the most fitting opportunity for administering it."

So the tide of dinner table talk ebbed and flowed, and *bon mots* sparkled with evanescent glitter, and people laughed as they scarcely knew what, and the rose-headed champagne circled round and round the board, and Mrs Napier thought triumphantly to herself: "It will be a success."

Just then Dr. Maynard's calm monotonously pitched voice broke in upon a silence that had momently settled upon the festive assemblage.

"Mrs. Napier," he said, looking full at the hostess, "this is a very elegant table cloth.

Mrs Napier smiled blandly and inclined her head, until the pearl ornaments tinkled softly. It was a singular remark, but then every one knew that Dr. Maynard was one of those eccentric geniuses that nobody pretends to understand or criticize.

"And those napkins are as white as the driven snow," went on the doctor, critically surveying the double damask on his lap.

Again Mrs Napier bowed.

"Moreover," pursued the doctor, in the same calm, unvarying tone, "I have been admiring Miss Napier's white muslin dress."

"Ah—yes," simpered the gratified mamma, "white is very becoming to my Theodosia's style."

And she glanced towards Theodosia, who was playing with her Black Hamburg grapes in a manner eminently calculated to display her rings.

"You must have a good laundress," said the doctor, abruptly.

"I believe Mrs Tooley is quite competent to her business," answered Mrs Napier, a little puzzled, but trying to indicate her relations "to the best society" by expressing no symptoms of surprise whatever.

"You are satisfied with her, then, madame?"

"Quite."

"Then why dont you pay her for her work?"

The *elite* dropped its silver fork and set down its glasses of champagne, quite uncertain whither this singular investigation was about to lead, Mrs Napier turned scarlet.

"Dr. Maynard I do not understand you."

"Do you not, madam? Then I will endeavor to speak a little more plainly. Mrs. Tooley is one of my tenants—she cannot raise her rent because Mrs Napier has not paid her a cent for the five weeks washing she has done. As I cannot for an instant suppose that Mrs Napier would withhold the wages of her laundress on any other ground than that of inability to pay, I can only suppose her too poor to discharge her rightful dues."

He was silent a moment. Mrs Napier strove to speak, but something rose up in her throbbing throat and seemed to choke her. Mr. Napier sat at his end of the table aghast.

"Under these melancholy circumstances," resumed the ruthless doctor, "I beg leave to suggest taking up a collection at the table for the benefit of Mrs. Napier's distressed washwoman, whose bills have not been paid! I put in a quarter myself—will somebody be kind enough to pass the china plate.

The china plate went round the table in perfect silence, and returned to its original source well filled. The *elite*, maliciously alive to all the weak spots in Mrs. Napier's armor, appeared to enjoy the thing. Mr. Napier, smiling faintly endeavored to regard the thing as a joke; but his wife knew that this one evening had undone the work of years, and sat pale and silent. She could cheerfully have murdered Dr. Maynard at that moment, and Mrs. Tooley, too!

"Ten dollars!" said the doctor deliberately counting the change. "Just fifty cents more than we need; but it will not come amiss to Mrs Tooley! Ladies and gentlemen, I have the honor to bid you a very good evening."

The Catholic hierarchy in Europe is as averse as ever to the idea of the Pope residing at Malta, Majorca or Lisbon, and the perpetual contest with the principles of civilization which it maintains is doing much to alienate the laity. Indeed, so markedly is this the case, that we find some of the extra Protestants devoutly expressing the hope that the Pope will remain at Rome guarded by foreign bayonets, in order that a generation may grow up to detest him.—People who are less of partisans feel on the contrary, that while the Pope is there or under, most of the poor of his States will remain as they now are, degraded below humanity. The people inhabiting the districts traversed by the younger Garibaldi and his bands, are the slaves of superstition, and in their ignorance are guilty of the gravest crimes. The longer they are under the Pope, the greater will be the difficulty—as the experience of Naples and Sicily proves—of bringing them with full liberty into a civilized kingdom.

Intelligent unionists writing from North Carolina say that the election on the 18th inst. will result in a handsome majority for a convention. The western half of the State is expected to poll a good majority of its white votes on this side, while the negro vote of the whole State will be almost unanimous for it. The whites of the central and eastern sections will cast a large majority of their ballots, if they go to the polls at all, against a convention. The negroes who have been nominated as delegates are generally of a much better class than those elected in Virginia, and the Union men speak of the rebels who are likely to be elected as less bitter in feeling than those of Virginia.

A good brother in one of the rural districts, thought he had a call to preach.—Being an intelligent reader, he got a friend to read the Scripture. The chapter on one occasion was 22d Genesis, which contains this verse: *"Then eight did Milcah bear to Nahor, Abraham's brother.* On this the preacher held forth as follows: "Brethren and sisters let us consider our blessings. Morning and evening our wives and daughters milk our cows, and thus supply our wants. But in the days of good old Abraham, as you have just heard, it took eight to *milk a bear*, and they did not get much at that."

The Kennebec Journal relates two bank stories. An application was made to a broker for stocks. "What kind do you want,—seven thirties?" "Well, I want a good deal: stock the right length for my money." Another who knew what stocks he wanted was inquired what denominations he would prefer, and replied that he was a Free will Baptist and he guessed he'd take the half of them in that denomination.

NEWPORT DAILY NEWS.

MONDAY, November 11, 1867.

BEN. WADE.

A writer in the *Cincinnati Commercial* gives a long account of a conversation with Ben. Wade on the political aspects of the times. If it is a correct report, it ought to materially damage the prospects of the defeated senator for further promotions at the hands of the American people. A public man who cannot carry on a conversation without interlarding it with oaths, is not a proper person to be put in places of trust and responsibility. We have been accustomed to admire Wade, but recent developments show him unfitted for the positions for which his name has sometimes been proposed. With a republican candidate who cannot even carry Ohio, there would be small chance of success in the next Presidential election.

Mr. Wade attributes the democratic gain in Ohio entirely to the prejudice against negro suffrage, and not at all to financial causes. He anticipates that some republicans will urge an abandonment of the more advanced doctrines of the party, but he holds that this would be dishonest in principle, and bad in policy. He believes that the reconstruction of the South cannot be effected on a stable basis without admitting the negro to the right of suffrage, and while he laments that so many of his party are unwilling to give the ballot to the negro in the loyal States, he regards that as no reason why it should be denied in the unorganized States, where the alternative is the surrender of the government to the rebels. Mr. Wade regards the confiscation plan of Thad. Stevens as nonsense. Confiscation might have been good policy during the war, when it might have kept property holders out of the rebellion; but would be of no use now. He doubts the expediency of the proposition to establish negro suffrage by act of Congress. He thinks that even if the amendment to the constitution can be strained to cover the power, it would be an invasion of the just rights of the States.

Bradley's Case—Judge Fisher Sustained.

In the Supreme Court of the District of Columbia, Saturday, Mr. Bradley read a statement in answer to the rule of the Court for him to specify why he should not be excluded from the bar as practicising attorney, owing to his difficulty with Judge Fisher.

Hon. Robert J. Walker made an argument in Mr. Bradley's behalf, when the full court, through Chief Justice Carter, sustained the order Judge Fisher made heretofore, suspending Mr. Bradley as a practitioner at the bar.

Justice Carter, in his remarks, said it was a painful duty, but it was necessary that the court should sustain its dignity, and punish the contempt.

Mr. Bradley thanked the court for the delicate manner in which it had announced its decision, and said that he had long ago contemplated retiring altogether from the bar, but that the present manner of severing his connection with the court rendered the separation more unpleasant.

STAMPS.—The following extract from the Internal Revenue Laws of the United States, is important to all business men. Many will see that they are not strictly conforming to the requirement, especially in that which relates to the method of cancelling:

"Sec. 156. *And be it further enacted,* That in any and all cases where an adhesive stamp shall be used for denoting any duty imposed by this act, except as hereinafter provided, the person using or affixing the same *shall write thereupon the initials of his name* and *date* upon which the same shall be attached or used, so that the same may not again be used.

And if any person shall fraudulently make use of an adhesive stamp to denote any duty imposed by this act without so effectually cancelling and obliterating such stamp, except as before mentioned, he, she, or they, shall forfeit the sum of FIFTY DOLLARS."

WESTON.—The interest in the progress of Weston seems on the increase in all parts of the country. Thus far his journey gives promise of success and we sincerely hopeho will reach Chicago within the required time. This sort of racing is such an improvement on prize fighting that we have no objection to see it go on. It is also much better than horse racing inasmuch as no hardship is endured by the man himself rather than put upon a poor dumb brute. If success be gained it is to the credit of the pedestrian and not to that of his beast. As Mr. Weston is a Rhode Island man he is entitled to the good wishes of our people. We shall keep our readers informed as to his progress from day to day.

Gen. Howard has issued a circular letter to the various sub-commissioners of his bureau, relative to abandoned property, of which there are over 250,000 acres on his books. Congress has authorized its restoration to former owners, and it would have been turned over to them long ago had they made proper application. Gen. Howard now gives them formal notice to this effect, and says that all property of this kind unrestored on the first of the coming January will be taken possession of and rented out by the bureau to freedmen and refugees for the ensuing year. The order has the official approval of Gen. Grant.

The funeral of Mrs. Eliza Bates, of South Glastenbury, Conn., was attended by more than one thousand persons coming from all parts of the state. Mrs. Bates was renowned for her kindness and charity to the poor. On taking up the rails of a New York street railroad a few days since, the wooden sleepers were found to have printed their exact representation on the iron. The grain knots and curvatures were easily detected both by the eye and by sense of touch.

A black man, who said he had been at sea for thirty years, created an excitement in Danbury, Conn., last week, by laying claim to about fifty acres of Grassy Plains with the buildings thereon, as heir of an old blackman who once owned the property.

The King of Belgium has appointed the Prince de Ligne, M. de Theux and M. Tesch guardians of the Princess Charlotte. This act indicates that all hope of her recovery is at an end. "Poor Carlotta.

About Home.

Young Men's Christian Association.—*Mr. Editor*:—Some time since the young men in this city organized a Christian Association, with a fair prospect of success, but of late the whole thing seems to be abandoned. Can you inform us why? It strikes me that it should not be so, in a place of the size of Newport, there should be such an organization, and there young men would feel that they had something to do, we read of the good that such associations are doing in other places, and there is enough to do here, to visit the poor and sick, and try to bring in wanderers to the several churches, and in fact there will be plenty of labor.—Will not the clergymen take the matter in hand, and advise the young men of their churches to reorganize and go to work without regard to denominations, for it will not be inquired of them hereafter what church they belonged to, but, the inquiry will be what have you done for your Master's cause.

M.

EVENING SCHOOL.—The evening school for the benefit of those who cannot attend during the day is held three evenings a week in the building occupied by J. M. Lyon's plumbing store on Thames street.—The school is well managed and we are glad to hear that there is a very good attendance. Still there are many others who ought to avail themselves of its advantages thus offered without expense to the pupils. It would be much better for the boys and girls who roam about the streets evenings, visiting places of questionable propriety and forming bad habits through vicious associations, to take this opportunity to store their minds with useful knowledge. Whoever assists in inducing a larger attendance on the evening school will do a good work.

AUTUMN still lingers in the lap of winter. The weather is so warm that it seems as if the effort made one day last week to introduce the cold term was a failure. The wind for a week past has been constantly changing about—as fickle in fact and as unreliable as Trinity Church clock.

PERSONAL.—Capt. Mayne Reid the well known literary writer and true patriot has taken a cottage in this city for the winter. He is now stopping at the Aquidneck House. It has been suggested that an effort be made to secure one or more public readings from him during the season.

THE RESERVOIR.—A deep drain is being extended through the center of Marlboro' Street by which to obtain a larger supply of fresh water for the Reservoir. It is about eight feet deep and will probably strike a sufficient number of springs to furnish quite a stream.

MINSTRELS.—La Rue's Minstrels appear at the Academy of Music to-morrow evening. They have been here before and are always popular.

THE PROVIDENCE SKATING RINK.—Providence is to have a Skating Rink. A Skating Rink is a building with sides and roof, but instead of floor a basin, twelve to eighteen inches deep. This basin is first filled, say half full, with water, and allowed to freeze to a sufficient thickness to bear the weight which will naturally be placed upon it. Of course, the great number of skaters will cut up in one day the ice upon a small Rink so that it will be unfit for skating at any other time. To obviate this, the ice is swept clean every night, and flooded over so as to present a glass and smooth surface for the next day. The Providence Skating Rink is to be situated on the northeast corner of Waterman and Thayer streets.

NORTH KINGSTOWN.—As a Mr. Franklin, of Exeter, was on his way home last Friday evening, and when nearly opposite the house owned by Dr. D. H. Greene, near Hunt's Bridge he was met by a man who, without uttering a word made a sudden attempt to stab him. Mr. Franklin knocked the highwayman down, and immediately two other birds of the same flock made a strike for him. Having no weapons his only way of escape was to use his propellers, which he did to the best advantage, until he reached the farm-house of George Austin, where he remained through the night. Mr. Franklin's coat showed striking marks of the outrage knife, and one side of the garment looked as if it had passed through the operations of a sausage-cutter.

NEW BEDFORD.—The body of an unknown light mulatto was found in the water near City wharf Saturday. The person was apparently 25 years old, and had probably been in the water nearly a week. No marks of rough usage could be found. The body was dressed in a dark coat, Vermont gray pantaloons without suspenders, navy blue shirt, and red flannel under-shirt, all of good quality. In the pockets were a red woolen scarf, a pair of thick purple knit gloves, and a two foot rule folded twice. From the clothing, the man is supposed to have been a sailor.

The keel of a bark about 700 tons will be laid immediately at Blackler's shipyard, Fairhaven, and the vessel constructed with as much dispatch as possible, under "Lloyd's inspection," for the purpose of obtaining the highest rate given to merchant vessels by their classification. The builder contracts her on his own account, and she will be for sale.

John Riordan a laborer at the water works had his ankle crushed by the falling of a stone from a derrick one day last week.

The Friends have a Sunday School Convention in that city commencing to-morrow and continuing three days.

BRISTOL.—Two of the oldest and most respectable residents of Bristol have deceased during the past week. Col. Hezekiah C. Wardwell for many years a prominent man in the Town died at the age of seventy-six, and Mrs. Mary S. Gladding at the advanced age of eighty-five.

FALL RIVER.—A Cotton Batting Mill belonging to Israel Buffington was burned on Saturday morning. Total loss about $20,000. There was $10,000 insurance divided among the Narragansett Co. of Providence, Peoples' of Worcester, Firemens of N. Y. and Enterprise of Cincinnati.

MANSFIELD.—The house and barn of Mr. J. W. Cobb were burned last Thursday. Loss, $5,000. Insured, $2,000.

MRS. CHARLES STRINGER has arrived home from Europe. We advise her, as a good Christian woman, to obey her husband and go to keeping house. No. 2.

DR. SCHENCK'S NEW OFFICE.

DR. J. H. SCHENCK, of Philadelphia, has opened an office on second floor of SOUTH BANDER SCHOOL, Boston, where he will be professionally every WEDNESDAY, from 9 to 3. Every person who is afraid with Consumption, or any disease leading to it, is invited to call on him. He gives advice free, but if a thorough examination with his Respiration Gas is desired, a fee of Five Dollars.

Dr. Schenck can expectorate at will, and very correctly tell the state of their disease, and how soon the medicines, namely, his Pulmonic Syrup, Sea-weed Tonic, and Mandrake Pills, without the use of the Respirometer; but by it he can tell exactly how far the disease are gone, and what part alone, whether of the liver, lungs, stomach, or bowels, or liver complaint, Scrofula, Rheumatism, Dyspepsia, or Costiveness, Humors, or Nervous Debility, it is merely an effect, direct and sympathetic from Liver complaint.

His medicines have full directions, so any one can take them without seeing him; but if they live near home, and are able enough, it is advisable. All kinds of his medicines are required in order to cure the different diseases, for it is impossible to cure Consumption unless the stomach and liver are kept in perfect order. To get them in a healthy condition the specially cures must be cleansed, and an appetite for good food created, so as to make good blood, before the lungs will begin to heal; then the chills and night sweats will stop, and the expectoration become free and easy.

He keeps a full supply of medicines at his rooms, which can be had at all times.

Price of the Pulmonic Syrup and Seaweed Tonic, each $1.50 per bottle, or $7.50 the half dozen. Mandrake Pills, 25 cents per box.

Paris Exposition.

GOLD MEDAL.

An Admitted Fact.

It is admitted by all that ELIAS HOWE, Jr., President of The Howe Machine Co., was awarded a GOLD MEDAL at the Paris Exposition.

Also, it is admitted that the Grand Cross of the Legion of Honor was conferred upon ELIAS HOWE, Jr., by the Emperor Napoleon. This is more than the HIGHEST HONORS ever awarded to a Sewing Machine Manufacturer.

THE ONLY QUESTION IS,

For what did ELIAS HOWE, Jr., *receive the above?* Did he receive the Exposition as a MANUFACTURER of Sewing Machines, or as an "Inventor?"

He did not apply for or receive the Gold Medal as an "Inventor."

The AWARD speaks of Mr. HOWE as "Manufacturer" and "MANUFACTURER of Sewing Machines."

Mr. HOWE (who is respected by Napoleon as the Great Mechanic) was awarded the Medal for Sewing Machines exhibited, AND FOR NOTHING ELSE.

Now in all fairness we ask, Whose Sewing Machines took the FIRST PRIZE at the Exposition?

Let common sense answer, as the case comes.

DR. WISTER'S BALSAM OF WILD CHERRY.

In the whole history of medical discoveries no remedy has performed so many or such remarkable cures of the numerous affections of the THROAT, Lungs and Chest, as this longtried and justly celebrated Cherry. So generally acknowledged is the superior excellence of this remedy that but few of the many who have tested its virtues by experience fail to keep it at hand as a speedy and certain cure for sudden attacks of Coughs, fully believing that its remedial powers are too extensive to embrace every form of disease, from the slightest cold to the most dangerous form of pulmonary complaint.

UNSOLICITED TESTIMONY,

From REV. FRANCIS LINDLEY, *Pastor of the South Congregational Church, Bridgeport, Connecticut.*

"I consider it a duty which I owe to suffering humanity to bear testimony to the virtues of Dr. WISTAR'S BALSAM OF WILD CHERRY. I have used it—when I have had occasion for any remedy for Coughs, Colds or Sore Throat,—for many years, and never in a single instance has it failed to relieve and cure me. I have frequently been very hoarse on Saturday, and looked forward to the delivery of two sermons on the following day with sad misgivings, but by a liberal use of the Balsam my hoarseness has invariably been removed, and I have preached without difficulty.

I commend it to my brethren in the ministry, and to public speakers generally, as a certain remedy for the bronchial troubles to which we are peculiarly exposed."

has so arranged that patients never see or hear each other. He alone has the only entrance to his Office in No. 21, having no connection with his residence, consequently no family interruption, so that no amount can any person receive the appointing at his office.

DR. DIX

boldly asserts (and it cannot be contradicted, except by Quacks, who will do or say anything, even perjure themselves, to impose upon patients) that he

Is the only regular graduate physician advertising in Boston,

SIXTEEN YEARS

engaged in treatment of Special Diseases, a fact so well known to many Clergymen, Publishers, Merchants, Hotel Proprietors, &c., that he is much recommended, and particularly to

Strangers and Travelers.

To avoid and escape imposition of Scrofula and Native Quacks, more numerous in Boston than other large cities.

DR. L. DIX

proudly refers to Professors and respectable Physicians—many of whom consult him in critical cases, his course of life acknowledged skill and reputation, attained through so long experience, practice and observation.

AFFLICTED AND UNFORTUNATE!

be not deluded and add to your sufferings in being deceived by the living horses, misrepresentations, false promises and pretensions of

FOREIGN AND NATIVE QUACKS,

who know little of the nature and character of Special Diseases, and less as to their cure. Some exhibit forged Diplomas of Institutions or Colleges which never existed in any part of the world; others exhibit Diplomas of the Dead, how obtained, unknown; not only assuming and deceiving in names of those inscribed in the Diplomas, but to bolster the imposition assume names of other most renowned Physicians long since dead. Neither be deceived by

QUACK NOSTRUM MAKERS,

through false certificates and references, and recommendations of their medicines by sick men, who cannot expose or contradict them; or who, besides, to further their imposition, copy from Medical books much that is written of the qualities and effects of different herbs and plants, and ascribe all the same to their Pills, Extracts, Specifics, &c., most of which, if not all, contain Mercury, because of the ancient belief of its "curing everything," but now known to "kill more than it cures," and those not killed, constitutionally injured for life.

IGNORANCE OF QUACK DOCTORS AND NOSTRUM MAKERS,

Through the ignorance of the Quack Doctor, knowing no other remedy, he relies upon Mercury, and gives it to all his patients in Pills, Drops, &c., so the Nostrum Maker, equally ignorant, adds to his so called Extracts, Specifics, Antidotes, &c., both relying upon its effects in curing a few in a hundred, it is trumpeted in various ways throughout the land; but, alas! nothing is said of the balance; some of whom die, others grow worse, and are left to linger and suffer for months or years, until relieved or cured, if possible, by competent physicians.

BUT ALL QUACKS ARE NOT IGNORANT.

Notwithstanding the foregoing facts are known to some Quack Doctors and Nostrum Makers, yet, regardless of the life and health of others, there are those among them who will perjure themselves, contradicting giving necessary to their patients or that it is contained in their Nostrums, so that the "mark fee" may be obtained, by profusedly cursing or "the dollar" or "fraction of it" may be obtained for the Nostrum. It is time that many are deceived also, and uselessly spend large amounts for experiments with quackery.

DR. L. DIX'S

charges are very moderate. Communications secretly and confidential, and all may rely on him with the strictest secrecy and confidence, whatever may be the disease, condition or situation of any one, married or single.

TO THE LADIES.—The celebrated DR. L. DIX particularly invites all who need a Medicine or Surgical adviser, to call at his Rooms, No. 21 Endicott Street, Boston, Mass., which they will find arranged for their special accommodation.

Dr. DIX having devoted over twenty years to this particular branch of the treatment of all diseases peculiar to females, it is now conceded by all, both in this country and in Europe, that he excels all other known practitioners in the safe, speedy and effectual treatment of all female complaints.

His medicines are prepared with the express purpose of removing all diseases, such as debility, weakness, unnatural suppressions, enlargement of the womb, also all discharges which flow from a morbid state of the blood. The Doctor is now fully prepared to treat in his peculiar style, both medically and surgically, all diseases of the female sex, and they are respectfully invited to call at

An Exciting Republican Meeting in Richmond.

—o—

VIOLENT LANGUAGE OF COLORED SPEAKERS.

—o—

THE MORE PEACEFUL OF THE BLACKS HOOTED DOWN.

—o—

TROUBLE APPREHENDED BY THE CITIZENS.

—o—

RICHMOND, Va., Nov. 9.—An exciting Republican meeting was held at the headquarters of the blacks last night. A committee was appointed to wait on General Schofield and request him to order the city election.

Lewis Lindsey, colored delegate elect to the Convention, made a speech. He alluded to the discharge of negroes for voting the Radical ticket. He said before any of his children should suffer, the streets of Richmond should run knee deep with blood.—He thanked God that negroes had learned to use swords and guns. All efforts of the more peaceful negroes to stop these demonstrations were wildly hooted down.

The citizens here are apprehensive of trouble. Mr. Wardell and other white Radicals left the meeting.

—o—

DISASTROUS STORM AT THE WEST.

LOUISVILLE, Nov. 10.—The storm on Friday night did considerable damage at Franklin, Ky., demolishing a two story tobacco warehouse, unroofing the Baptist church, and injuring several other buildings.

At Greencastle, Ind., about $25,000 worth of property was destroyed; the Methodist church was unroofed, the Baptist church blown down, and many houses considerably injured.

In the country, considerable valuable timber was blown down.

ELECTION OF A DEMOCRATIC CONGRESSMAN IN MISSOURI.

ST. LOUIS, Nov. 9.—Returns from the election in the Third Congressional District, to fill the vacancy caused by the death of Thomas E. Noell, indicate the election of Gen. McCormick (Democrat) by about 500 majority.

—o—

NO CABLE DESPATCHES.

NEW YORK, Nov. 10.—For three days past no European despatches have been received for the Associated Press over the Atlantic Cable. It is supposed this is from the prostration of the Newfoundland land lines by the storm, but under instruction from their superiors, the telegraph officials refuse to furnish any excuse or explanation for the cessation of cable despatches.

A SOUTHERN EDITOR ARRESTED FOR ALLEGED DENUNCIATION OF GENERAL ORD.

NEW ORLEANS, Nov. 9.—Colonel W. H. McCastle, editor of the Vicksburg *Times*, was yesterday placed in confinement by General Ord. The charge has not been made known, though a special to the Crescent says it was for personal denunciations.

Weston's Western Progress.

ONEIDA, N. Y., Sunday, Nov. 10.

Special Dispatch to the Prov. Journal:

Weston left Schenectady Friday morning at 7.30 o'clock, and passed through Amsterdam to Fonda—26 miles—where at 2.30 in the afternoon he stopped for dinner. He left at 4.25 for St. Johnsville—21 miles—where at 8.15 he stopped for supper. Leaving again at 9.45, he reached Little Falls—10 miles—at 12.40—where he stopped over night at the Benton House, having walked 57 miles.

Saturday morning, Weston left at 9 o'clock, and arrived at Utica—22 miles—at 2.45 in the afternoon, and dined at the Bagg House. The city seemed perfectly wild, and the reception was the most demonstrative of any he has yet received.

Weston left Utica at 4.30 o'clock, and Rome at 9.10, and arrived within a mile of Oneida at midnight, having accomplished 48 miles during the day, and 313½ miles of the journey in eleven walking days, leaving 72½ miles to be walked during the remaining sixteen days.

This afternoon Mr. Weston visited the Oneida Free Love Community, where he had a special reception by the Communists.

A Library of Universal Information.

THE NEW

American Cyclopædia:

A POPULAR DICTIONARY OF GENERAL KNOWLEDGE.

Edited by

GEORGE RIPLEY AND CHARLES A. DANA

AIDED BY A NUMBER SELECT CORPS OF WRITERS, IN ALL BRANCHES OF SCIENCE, ART, AND LITERATURE.

In 16 large volumes, 8vo.
750 double-column pages in each volume.

The leading claims to public consideration which the New American Cyclopædia possesses may be thus briefly stated:

"1. It surpasses all other works in the fulness and ability of the articles relating to the United States.

"2. No other work contains so many reliable biographies of the leading men of this and other nations. In this respect it is far superior even to the more bulky Encyclopædia Britannica.

"3. The best minds in this country have been employed in enriching its pages with the latest data, and the most recent discoveries in every branch of manufactures, mechanics, and general science.

"4. It is a library in itself, where every topic is treated, and where information can be gleaned which will enable a student, if he has access to no other authorities, thus affording him an invaluable key to knowledge.

"5. It is neatly printed, with readable type, on good paper, and contains a most copious index.

"6. It is the only work which gives any thing approaching correct descriptions of cities and towns of America, or embraces reliable statistics showing the wonderful growth of all sections."

Every one that reads, every one that mingles in society, is constantly meeting with allusions to subjects on which he needs and desires further information.—In conversation, in trade, in professional life, on the farm, in the family, practical questions are continually arising, which no man, well read or not, can always satisfactorily answer. If facilities for reference are at hand, they are consulted, and not only is the curiosity gratified, and the stock of knowledge increased, but positive information is gained and ideas are suggested that will directly contribute to the business success of the party concerned.

A Cyclopædia is pre-eminently the work for our country and generation. This is the age of steam. No one has time to grope among a hundred different works for every little fact required, without the certainty of finding it at last. With a Cyclopædia, embracing every conceivable subject, and having its topics alphabetically arranged, not a moment is lost. The matter in question is found at once, digested, condensed, stripped of all that is irrelevant and unnecessary, and verified by a comparison of the best authorities. Moreover, while only men of fortune can collect a library complete in all the departments of knowledge, a Cyclopædia, worth in itself for purposes of reference at least a thousand volumes, is within the reach of all,—the clerk, the merchant, the professional man the farmer, the mechanic. In a country like ours, where the humblest may be called to responsible positions requiring intelligence and general information, the value of such a work cannot be over-estimated.

"We can confidently and conscientiously recommend the 'Annual Cyclopædia' to all who would have an accurate and readable history of contemporary events close at hand and as a safe work of reference."

Evening Traveller.

"It is indeed a most excellent work. It is thorough and reliable, and just such a work as is greatly needed, a faithful chronicler of important events, too numerous to be remembered, and of too much account to be lost."—*Cleveland Daily Plain Dealer.*

500 MILES

OF THE

Union Pacific Railroad,

Running West from Omaha ACROSS THE CONTINENT,

ARE NOW COMPLETED.

The Union Pacific Railroad Company have built a longer line of railroad in the last eighteen months than was ever built by any other company in the same time, and they will continue the work with the same energy until it is completed. The Western Division is being pushed rapidly eastward from Sacramento by the Central Pacific Company of California, and it is expected that

THE ENTIRE GRAND LINE

to the Pacific will be open for business in 1870. MORE THAN ONE-THIRD OF THE WORK HAS ALREADY BEEN DONE, MORE THAN ONE-THIRD OF THE WHOLE LINE IS NOW IN RUNNING ORDER, AND MORE LABORERS ARE NOW EMPLOYED UPON IT THAN EVER BEFORE. More than

Forty Million Dollars in Money

have already been expended by the two powerful companies that have undertaken the enterprise, and there is no lack of funds for its most vigorous prosecution. When the United States Government found it necessary to secure the construction of the Union Pacific Railroad, to develop and protect its own interests, it gave the Companies authorized to build it such ample aid as should render its speedy completion beyond a doubt. The available means of the Union Pacific Railroad Company, derived from the Government and its own stockholders, may be briefly summed up as follows:

1.—United States Bonds

Having thirty years to run and bearing six per cent. currency interest at the rate of $16,000 per mile for 617 miles on the Plains; then at the rate of $32,000 per mile for 150 miles through the Rocky Mountains; then at the rate of $32,000 per mile for the remaining distance, for which the United States takes *a second lien as security.* The interest on these bonds is paid by the United States Government, which also pays the company one-half the amount of the bills in money for transporting its freight, troops, mails, &c. The remaining half of these bills is placed to the company's credit, and forms a sinking fund which may finally discharge the whole amount of this lien. The claims against the Government grow less daily, and the net year amount so far are one-half times this interest.

2.—First Mortgage Bonds,

By its charter the Company is permitted to issue its own First Mortgage Bonds to the same amount as the bonds issued by the Government, and *on same, and only as the road progresses.* The Trustees for the bondholders are the Hon. E. D. Morgan, U. S. Senator from New York, and the Hon. Oakes Ames, Member of U. S. House of Representatives, who are responsible for the delivery of these bonds to the Company in accordance with the terms of the law.

3.—The Land Grant.

The Union Pacific Railroad Company has a land grant or absolute *donation* from the government of 12,800 acres to the mile on the line of the road, which will not be worth less than $1.50 per acre at the lowest valuation.

4.—The Capital Stock.

The authorized capital of the Union Pacific Railroad Company is $100,000,000, of which over $5,000,000 have been paid on the work already done.

The Means Sufficient to Build the Road.

Contracts for the entire work of building 914 miles of first-class railroad west from Omaha, comprising much of the most difficult mountain work, and embracing every expense except surveying, have been made with responsible parties who have already finished over 200 miles, at the average rate of forty-eight thousand and fifty-eight dollars ($48,058) per mile. This price includes all necessary shops for construction and repairs of cars, depots, stations and all other incidental buildings, and also locomotives, passenger, baggage, and freight cars, and other requisite rolling-stock, to an amount that shall not be less than $5,000 per mile. Allowing the cost of the remaining one hundred and eighty-six of the eleven hundred miles assumed to be built by the Pacific Company to be $30,000 per mile.

The Total Cost of Eleven Hundred Miles will be as follows:

914 miles, at $48,058	$43,905,612
186 miles, at $30,000	16,710,000
Add discounts on bonds, surveys, &c.	4,600,000
Amount	$65,415,612

As the U. S. Bonds are equal to money, and the Company's own First Mortgage Bonds have a ready market, we have as the

Available Cash Resources for Building Eleven Hundred Miles:

U. S. Bonds	$29,828,000
First Mortgage Bonds	29,828,000
Capital stock paid in on the work now done	5,360,750
Land Grant, 1,050,000 acres, at $1 50 per acre	21,120,000
Total	$85,115,750

The company have ample facilities for supplying any deficiency that may arise in means for completing the road. This may be done wholly or in part by additional subscriptions to capital stock.

Active inquiry has already been made for a portion of these lands, and arrangements are now proposed to offer a part of them for sale. While their whole value will not be available for some years to come, they will remain a very important source of revenue to the Company. The lands of the Illinois Central Railroad Company are selling at from $6 to $12 per acre, and other land-grant companies in the West are receiving equal prices for similar properties.

Future Business.

The most skeptical have never expressed a doubt that when the Union Pacific Railroad is finished the immense business that must flow over it, as the only railroad connecting the two grand divisions of the North American continent, will be one of the wonders of railway transportation; and as it will have no competitor it can always charge remunerative rates. The Pacific Mail Steamship Company of New York is now running a regular line of its splendid steamers between San Francisco and China and Japan, which is doubtless the pioneer of other lines that will traverse the Pacific Ocean laden with the teas, spices and other products of Eastern Asia. Excepting some very heavy or bulky articles, of comparatively low values, shortness of time decides the direction of freights and most of these carries will find their natural transit over the Union Pacific Railroad.

It is quite within bounds to say that its traffic will be limited only by the capacity of the line, and that no other road will find a *dollar's* competition. California and Oregon must not only be supplied with means of transport for its passengers, mail, express and other freights, but the inhabitants of Dakotah, Colorado, Utah, Idaho and Montana will communicate with the older States almost entirely by this road. It will be the avenue to all the great mining districts, which is only awaiting the easily means of communication to receive a population that will develop its vast mineral and other resources, and which of itself will furnish ample business for a railway line.

EARNINGS FROM WAY BUSINESS.

While the through business of the Company will be amply remunerative, it is still in the future, but the local business on the part of the road in operation has been most satisfactory.

During the quarter ending July 31, an average of 355 miles of the Union Pacific Railroad was in operation. The Superintendent's report shows the following result:

Earnings.

Passengers, Freight, Telegraph and Mails	$723,555 54
Transportation of Contractors' Materials and Men	479,285 41
Total	$1,202,835 95

Expenses.

Fuel, Repairs, Offices, Conductors, Trains, &c.	$595,330 92
Net Earnings (to balance)	607,505 03
Total	$1,202,835 95

The net operating expenses on the commercial business for the quarter were $487,006 50. The account for the COMMERCIAL BUSINESS stands as follows:

Earnings for May, June and July	$723,555 54
Expenses " " "	487,006 50
Net Profit	$236,789 04

The amount of lands the Company can earn on 355 miles at $16,000 per mile is $5,680,000. Interest in gold, three months, at 6 per cent. on this sum, is $75,600; add 40 per cent. premium to correspond with currency earnings, $105,840—showing that the net earnings for this quarter were *more than four times the interest* on the First Mortgage Bonds on this length of road.

First Mortgage Bonds,

whose principal is so amply provided for, and whose interest is so thoroughly secured, must be classed among the *safest* investments. They pay

Six per Cent. in Gold,

and are offered for the present at NINETY CENTS ON THE DOLLAR, and accrued interest at Six Per Cent. in Currency from July 1.

Many parties are taking advantage of the present high price of Government stocks to exchange for these Bonds, which are over FIFTEEN PER CENT. CHEAPER, and, at the current rate of premium on gold pay

Over Nine Per Cent. Interest,

Subscriptions will be received in Newport by NATIONAL EXCHANGE BANK, NATIONAL BANK OF NEWPORT, and in New York at the Company's Office, No. 20 Nassau street, and by CONTINENTAL NATIONAL BANK, No. 7 Nassau street, CLARK, DODGE & CO., Bankers, No. 51 Wall street, JOHN J. CISCO & SON, Bankers, No. 53 Wall street,

and by the Company's advertised Agents throughout the United States, of whom maps and descriptive pamphlets may be obtained on application. Remittances should be made in drafts or other funds par in New York, and the bonds will be sent free of charge by return express.

JOHN J. CISCO, Treasurer,
se16 New York.

ACROSS THE SIERRA NEVADAS

THE

Central Pacific Railroad.

THE WESTERN HALF

OF THE

GREAT NATIONAL TRUNK LINE

Across the Continent,

Being constructed WITH THE AID AND SUPERVISION OF THE UNITED STATES GOVERNMENT, is destined to be one of the most important lines of communication in the world, as it is the *only link between the Pacific Coast and the Great Interior Basin,* over which the immense Overland travel must pass, and the

Principal Portion of the Main Stem Line between the two Oceans.

Its line extends from Sacramento, on the best site of the Pacific, eastward across the richest and most populous part of California, Nevada and Utah, contiguous to all the great Mining Regions of the Far West, and will meet and connect with the roads now building east of the Rocky Mountains. About 100 miles are now built, equipped and in running operation to the summit of the Sierra Nevada. Within a few days 35 miles, now graded, will be added, and the track can be rapidly carried across the mountains to a point in the Great Salt Lake Valley, whence further progress will be easy and rapid. Iron, materials and equipment are ready at least for 300 miles of road, and 10,000 men are employed in the construction.

The local business upon the completed portion surpasses all previous estimate. The figures for the quarter ending August 31 are as follows in Gold:

Gross Earnings.	Operating Expenses.	Net Earnings.
$487,579 64	$86,543 47	$401,031 17

of at the rate of two millions per annum, of which more than three-fourths are net profit on less than 150 miles worked. This is upon the actual, legitimate traffic of the road, with its terminus in the mountains, and with only the normal rate of government transportation, while the value of the materials carried for the further extension of the road.

The Company's Income Bonds during the same period were less than $125,000.

Add to this an ever-expanding through traffic and the prospects of the future business become immense.

The Company are authorized to continue their line eastward until it shall meet and connect with the road now building east of the Rocky Mountain range. Assuming that they will build and control half the entire distance between San Francisco and the Mississippi River, as now seems probable, the United States will have loaned to the completion of 800 miles $28,392,000, or at the average rate of $35,600 per mile—not including an absolute grant of 10,000,000 acres of the Public lands. By becoming a joint partner in the magnificent enterprise, and by waiving the first lien in favor of the First Mortgage Bond holders, the GREAT GOVERNMENT IS ENABLED TO ASSURE THE CONSTRUCTION OF THE WESTERN CAPITALISTS, and has carefully guarded their interests against all contingencies.

The Company offer for sale, through us, their

First Mortgage Thirty-Year Six Per Cent. Coupon Bonds,

Principal and Interest Payable in Gold Coin,

in New York city. They are in sums of $1,000 each, with coupons attached, are free of Government tax, and are selling for the present at 95 per cent. and accrued interest from July 1, in currency, at which rate they yield nearly

Nine Per Cent. upon the Investment.

These Bonds, authorized by act of Congress, are issued only as the work progresses, and to the same amount only as the Bonds granted by the Government, and are present in all cases the *first lien* upon a completed, equipped and productive railroad, in which have been invested Government subsidies, Stock subscriptions, donations, surplus earnings, etc., and which is worth more than three times the amount of First Mortgage Bonds which can be issued upon it.

The Central Pacific First Mortgage Bonds have all the assurances, sanctions and guarantee of the Pacific Railroad Act of Congress, and have in addition several notorious advantages over all other classes of railroad bonds.

First—They are the superior claim upon altogether the most vital and valuable portion of the Union line.

Second—Beside the fullest bounty of the Government subsidy, which is a substantial lien, the road receives the benefit of large donations from California.

Third—Fully half the whole cost of grading 800 miles eastward of San Francisco is concentrated upon the 150 miles now almost completed.

Fourth—A local business already yielding three-fold the annual interest liabilities, with advantageous rates yet to be made in earnings.

Fifth—The principal as well as the interest of the Bonds being payable in coin, upon a totally binding government.

Having carefully investigated the resources and prospects of the Road, and the management of the Company's affairs, we cordially recommend these Bonds to Trustees, Executors, Institutions and others as an entirely sound, reliable and remunerative form of permanent investment.
